Contract Vehicles
NHO 8(a) Sole Source Award guidance in 13CFR124.506(b)(2) and 13CFR124.517(a) allows Hokua the unique ability to receive direct awards up to $100M that cannot be protested because of our NHO 8(a) status.

Hokua is a Joint Venture between Nalu Federal, LLC, an NHO-owned SBA 8(a) firm, and Elevate Group, LLC. This partnership combines the strengths of both companies to offer federal agencies comprehensive IT, Cybersecurity, and program management solutions. Hokua provides streamlined access to advanced technologies, drawing on Elevate's CMMI Level 3 appraised competencies and Nalu's NHO 8(a) status. Core competencies include IT Engineering, Cybersecurity, Software Development, Program Management, and full-service staffing solutions. Hokua not only meets high technical standards but also supports small business participation and the economic development of Native Hawaiian communities, aligning with federal socioeconomic goals.

GOVERNMENT/DEFENSE CLIENTS

HOKUA KEY CAPABILITIES

Information Technology Engineering Services
- Enterprise Architecture
- Infrastructure as a Service (IaaS)
- Integration Engineering
- DevOps Engineering
- Automation Engineering
- Site Reliability Engineering
- Cybersecurity Engineering
- IT Modernization
- Configuration Control & Management
- Process Improvement
- Cloud Architecture and Engineering
- SaaS, PaaS, and SaaS Solutions

Operations & Maintenance Services
- Cloud Operations
- Network Administration
- Web, Application, & Database Administration
- Data Storage
- Messaging Services
- Desktop/Laptop Support
- Mobile Computing
- Telephone & VTC Administration
- Operating Systems & Software
- Upgrades
- Asset Management
- Service Desk Support

Professional Staffing Services
- Specializing in Engineering &
- Information Technology
- On Demand Talent Acquisition
- Project Based/Surge Control Services
- Transition Support Service
- Workforce Process Outsourcing
- Private Label Solutions—Virtual Bench
- Centralized Model—Low Cost

Program Management & System Engineering
- Concept Development
- Requirement Analysis
- System Architecture
- Design & Development
- System Integration
- Test & Evaluation
- Install & Fielding
- Capacity Planning
- Risk Management
- Quality Management
- Change Management

Software Engineering & Development Services
- Software Design & Development
- DevOps Best Practices & User-Centric Approach
- Agile: Lean, Kanban, Scrum
- Infrastructure as Code (IaC)
- Extreme Programming (XP)
- Test Driven Development (TDD)
- Continuous Integration (CI)
- Continuous Delivery (CD)
- Performance Monitoring
- Pipeline Automation
- COTS Integration
- Software as a Service (SaaS)
- Cloud Migration Strategies and
- Solutions

Cybersecurity & Data Protection Services
- Information System Security (INFOSEC)
- Governance, Risk & Compliance
- Threat Detection & Prevention
- DevSecOps Coding
- Risk Management Framework (RMF)
- Continuous Monitoring
- Intrusion Detection
- Vulnerability Scanning
- Compliance Testing
- Audit Management
- Incident/Disaster Response &
- Recovery
- Identity & Access Management (IdAM)t

Modeling and Simulation Expertise
- Operations-centric Domain Planning
  - Air
  - Space
  - Maritime
  - Land
  - Cyber
- Live, Synthetic Environment Support

Data Analytics
- Strategy, Governance & Architecture
- Data Science
- Data Design & Storage
- Big Data Analysis & Programming Data Visualization
- Data Mining & Discovery

Additional Key Capabilities
- Cyber Security & Information Assurance Support
- Data Center Operations & Network Engineering
- Database Management & Business Intelligence
- Enterprise Application Development & Maintenance
- Network Operations Center (NOC) / Security
- Penetration Testing
- Server Management
- Systems Administration
- ServiceDesk & HelpDesk Services
- Program & Project Management
- SCIF as a Service
- Logistics and Warehousing
- Personnel Training
- Administrative Services
- Software Factory services
- Security Services
- Janitorial Services
- Foreign Military Sales
